

Did You Know?

DID YOU KNOW, Our Emergency Medical Responder program is currently undergoing changes!

Manitoba Health - EMS Branch has recently approved significant changes within the EMR program including:

- New Patient Care Maps (PCMs) which replace the Emergency Treatment Guidelines and Protocols (ETGs and ETPs)
- New course syllabus
- Textbook changes
- New examination format

The Manitoba Emergency Services College is incorporating all these revisions through a complete redevelopment of the EMR course. Once all the course materials are redeveloped, we then require approval from Manitoba Health for our new curriculum.

We anticipate that all redevelopment and approvals will be complete in the first quarter of 2017. At that time, MESC will host a workshop for EMR instructors to review the new course materials and provide answers to any questions. Workshop Dates - TBD

If you have any questions, please contact the MESC using one of the avenues listed below and ask to speak to someone in Student Services.

If you need to withdraw from a course/seminar, please use the e-mail address below to send your notice.
