

2018 Mutual Aid District Training Incentive Fund

The Mutual Aid District Training Incentive Fund was implemented by the Office of the Fire Commissioner in an effort to promote and enhance training at the Mutual Aid District level across the Province. This highly successful initiative has proven, over the years, to provide quality courses at the district level that would otherwise be difficult for many municipal departments to obtain.

The \$11,500.00 is allocated annually per Mutual Aid or Training District to train and/or upgrade the qualifications of the active members of their participating departments.

The funds generated by the District through this initiative are used to support the continued development and enhancement of District's training capacity through the initiatives such as the development of the District's Instructor network.

Courses eligible for Training Incentive Funds are the Manitoba Emergency Services College courses only and must be taught by an MESCC Emergency Services Instructor for that specific program area. Monies are paid directly to the Mutual Aid or Training District based on the successful completion of the course in accordance with the Mutual Aid District Training Incentive Invoice.

A list of these courses can be found on the Mutual Aid District Training Incentive Invoice Form found on our website at: www.firecomm.gov.mb.ca/support_incentives.html

Standard First Aid and CPR C Courses must be taught by a provider identified on the Workplace Safety & Health website at:

<http://www.gov.mb.ca/labour/safety/training.html>
