

Fire Services Exemplary Service Medal Nominations and Submissions

Nominations for this award will only be accepted during the intake period. The deadline for this period is December 31, 2024. Please review the instructions carefully. If your nomination forms are incomplete, they will be returned for resubmission.

The Exemplary Service Medal is administered by the Governor General of Canada's office in recognition of the people dedicated to preserving Canada's public safety through long and outstanding service.

The Fire Services Exemplary Service Medal, created on August 29, 1985, honours members of a recognized Canadian fire service who have completed 20 years of service, ten years of which have been served in the performance of duties involving potential risks, and were employed on or after the date of creation of the Medal. Recognized fire services include Canadian fire departments, fire marshals' offices, fire commissioners' offices and the Canadian Forces fire services. Exemplary service is characterized by good conduct, and efficiency. Consideration is given only to periods of service for which no other long service, good conduct or efficiency decoration or medal has been awarded by the Crown. The medal is awarded for 20 years of exemplary service, with bars for 30, 40, and 50 years of service and may be awarded posthumously.

ELIGIBILITY

An individual may be awarded the Medal based on the following criteria:

- The firefighter was a member of a fire service on or after August 29, 1985;
- The firefighter has **completed** 20 years as a member of a fire service, of which at least 10 years have been served in the performance of duties involving potential risk as determined by the advisory committee,
- The firefighter has a record of exemplary service during the required period with no serious disciplinary action taken against them during that period and has none pending.

A person who has been awarded the Medal is eligible to be awarded a Bar in respect of each additional 10- year period of service in a fire service, after the 20-year period in respect of which they were awarded the Medal if the person has a record of exemplary service during that period.

EXCEPTION

No period of service that has been recognized by any other long service, good conduct or efficiency decoration or medal awarded by His Majesty in right of Canada shall count as service for the award of the Fire Services Exemplary Service Medal. Full-time unrecognized exemplary service in a profession whose members are eligible to be awarded another exemplary service medal may count as qualifying service for the award of the Medal.
